The 270SF combines the latest technology with the heart of a fisherman. Built to endure the most taxing sea conditions the patented Vectorflo™ hull design will ride the roughest waves and keep you safe and dry. Constructed of 100% composite materials and the highest grade components on the market, this boat is designed for today's newest engine technology and is rated for a total of 450 horsepower for anglers who want to reach the fishing hole first. The cleverly designed cockpit provides the ultimate user-friendly fishing station with a 300-quart insulated fishbox, 25-gallon livewell, and two in-deck storage boxes with a removable storage for 6-seven foot rods. When you want to fish offshore, and get there fast, this is the power CAT for you.
